Team 7

Motivation

- Current car wash models requires time, effort, resources
  - Automatic Car Wash: Must go to location, excessive water, not as detailed as hand wash
  - Hand wash: Requires time, supplies, physical exertion
- Provide convenience: bring the service to the customer
- Opportunity to enter stagnant market
- Benefits to all involved: Washu, Business Licensees, Washers, Customers

Team 7

Functional Specifications

- Make car washes more convenient, quicker, easier
- Car owners receive notifications in wash region, uploads car picture, input orders
- Washers receive notifications for orders, mark orders as complete
- Managers see orders, create wash regions
- Native Mobile application
- Develop for Android 4.0 to reach the most number of users
